

PARAGRAMS

Write the answer to clue 1 in its place in the diagram, one letter per square. The answer to clue 2 contains the rearranged letters of the first answer with one letter removed. Copy that dropped letter into the space at the left of box 1 in the diagram. The answer to clue 3 similarly contains the rearranged letters of the second with one missing. Put that letter into the space at the right. Solve each row in this manner. When completed, the letters in the left and right columns, reading top to bottom, spell out a phrase, name, or related words.

	1								2						3					
	4								5						6					
	7								8						9					
	10								11						12					
	13								14						15					
	16								17						18
